Actively participating in pandemic prevention and control, demonstrating the value of property services

At the beginning of 2021, due to the local outbreak of the COVID-19 pandemic, the Hebei region and the Shenyang region

Further expand our business scale and market share

Leveraging our leading market position, strategic service network, and brand recognition and awareness, we aim to further expand our business and market share and achieve growth.

We plan to further expand our cooperation with RiseSun Group through improving our capabilities of managing diversified types of properties. By expanding such cooperation, we expect to solidify and expand our market share in cities we currently have operations in, and also penetrate into new regions. Leveraging our extensive property management service experience, we also plan to offer property management consultancy services to property developers and small and medium-sized property management service companies.

We also plan to expand our collaboration with independent third party property developers. For properties with a GFA of over 1 million sq.m. or municipal service properties, we may form joint ventures with independent third-party property developers to manage those properties developed by such developers. The independent third party property developer and the Company will enter into agreements to form the joint venture, which will be the entity to procure property management service mandates and provide property management services. We believe that our relationship with third party property developers, our knowledge of the specific service needs of such property developers coupled with our property management experience, would increase the chances for the joint venture to secure property management services contracts for the property projects developed by such property developers. According to China Index Academy, the Company's industry consultant, the key factors we will consider in selecting targets for joint ventures include the credit worthiness of business partner, geographical location, legal compliance, target customer group, local population, project scale, construction standards and investment returns. As of June 30, 2021, we had entered into framework agreements with 84 independent third party property developers to set up joint ventures, in which we will hold the majority of the equity interests, to jointly manage properties to be developed by these developers. The properties under these agreements had an aggregate contracted GFA of approximately 95.33 million sq.m., including residential properties, entrepreneurial parks, health and wellness services, Olympic stadiums, etc.

Meanwhile, we plan to engage in selective acquisitions to expand our business. Our selection criteria for potential target companies include but not limited to: (i) GFA under management of over 1.0 million sq.m.; (ii) operating revenue in the latest financial year of over RMB20.0 million; (iii) compliance of business operations with laws and regulations; and (iv) diversity in the portfolio of managed properties. We will prioritize in assessing potential acquisition or investment targets with a portfolio of managed properties covering tier-one or new tier-one cities, such as Beijing, Shanghai, Guangzhou, Shenzhen, Tianjin and Chengdu, or those with a diversified portfolio of managed properties, such as commercial properties, industry parks, schools and hospitals. Through the investment in or acquisition of these companies, we expect to expand our geographic coverage, reinforce our competitive edge in economically developed regions, diversify our portfolio of managed properties and enhance our brand awareness. On August 3, 2021, the Company entered into a strategic cooperation framework agreement with Guofu HK, a wholly state-owned company under the Hebei Provincial Government. By leveraging on each other's resources, brand and projects in reserve, with Guofu HK introducing quality projects for acquisition, civil property services business and prospective investors to the Company. To promote a win-win relation between the two parties, Guofu HK or its associated enterprises invested in the Company in various ways, and it plans to jointly establish an investing entity with the Company to invest and acquire quality property management enterprises and the upstream and downstream enterprises within Hebei Province, further expanding the influence of Hebei enterprises in the overseas capital market.

The increase in the cost of sales was mainly due to the increase in revenue and the corresponding increase in costs.

Gross profit and gross profit margin

	Six months ended June 30,			
	2021		2020	
	Gross profit RMB'000	Gross profit margin %	Gross profit RMB'000	Gross profit margin %
Property management services	181,634	35.1	144,415	32.5

Community value-added services	89,222	53.6	22,109	31.5
Total	449,976	34.9	218,554	28.6

Gross profit represents revenue less cost of sales. As a result of the foregoing, the Group's gross profit increased by approximately 105.9% from approximately RMB218.6 million for the six months ended June 30, 2020 to approximately RMB450.0 million for the six months ended June 30, 2021.

The gross profit margin of the Group increased from approximately 28.6% for the six months ended June 30, 2020 to approximately 34.9% for the six months ended June 30, 2021, which was mainly attributable to the increase in the proportion and gross profit margin of value-added services to non-property owners and community value-added services.

Management Discussion and Analysis

Selling and marketing expenses

The Group's selling and marketing expenses mainly consist of employee benefit expenses and office expenses for its sale and marketing staff. The Group's expenses increased by approximately 205.0% from approximately RMB2.8 million for the six months ended June 30, 2020 to approximately RMB8.4 million for the six months ended June 30, 2021, primarily due to the Group's business growth, which resulted in the increase in revenue, and thus the employee benefit expenses and the travelling and entertainment expenses.

Administrative expenses

The Group's administrative expenses mainly consist of (i) employee benefit expenses; (ii) travelling and entertainment expenses; (iii) professional service fees, primarily including legal fees and information technology usage and maintenance fees for its mobile application; (iv) office expenses; (v) bank charges; (vi) Listing expenses; (vii) depreciation and amortization charges for the Group's office equipment; (viii) auditors' remuneration; (ix) cost of consumables; and (x) others. The Group's administrative expenses increased by approximately 25.4% from approximately RMB82.6 million for the six months ended June 30, 2020 to approximately RMB103.6 million for the six months ended June 30, 2021, primarily due to the increase in the employee benefit expenses arising from the Group's business growth, and the increase in service fees from engaging external intermediary agencies by the Company for the Listing.

Other income

The Group's other income mainly includes (i) interest income from loans due from related parties, representing interest income derived from the Group's non-ABS loans due from related parties; (ii) interest income on financial lease from subleasing certain car parks and retail units; and (iii) government grants. The Group's other income decreased by approximately 75.2% from approximately RMB26.5 million for the six months ended June 30, 2020 to approximately RMB6.6 million for the six months ended June 30, 2021, primarily due to the completion of the clearance of non-trade transactions with related parties last year, resulting in no interest income incurred from related party loans this year.

Other losses – net

The Group's net other losses mainly consist of (i) net gains from fair value change of financial assets at fair value through profit or loss, including fund products and wealth management products; (ii) fair value (losses)/gains on investment properties, including retail units and car parks held for rental income and capital appreciation; (iii) net losses from early termination of lease agreements and derecognition of right-of-use assets related to certain retail units and car parks the Group leased from certain property owners and residents in the properties managed by it; (iv) foreign exchange losses; and (v) others. For the six months ended June 30, 2021, the Group recorded net other losses of approximately RMB6.0 million, mainly attributable to the losses from early termination of lease agreements and derecognition of right-of-use assets and foreign exchange losses.

Income tax expenses

The Group's income tax expenses comprise PRC corporate income tax. The Group's income tax expenses increased by approximately 96.9% from approximately RMB41.4 million for the six months ended June 30, 2020 to approximately RMB81.5 million for the six months ended June 30, 2021. Such increase was primarily due to the increase in the Group's profit before tax as a result of its business expansion. The effective income tax rate of the Group remained relatively stable at approximately 28.3% and approximately 24.8% for the six months ended June 30, 2020 and 2021, respectively. The income tax rate for the period was lower than the PRC statutory corporate income tax rate of 25%, primarily because certain subsidiaries as small and micro enterprises enjoy a preferential tax rate.

Profit and adjusted profit for the period

As a result of the aforementioned changes in the Group's financial conditions, the Group's profit for the period increased by approximately 135.9% from approximately RMB104.8 million for the six months ended June 30, 2020 to approximately RMB247.2 million for the six months ended June 30, 2021. After excluding the Listing expenses and share-based payments (net of tax), the Group's adjusted profit for the period increased by approximately 105.5% from approximately RMB128.0 million for the six months ended June 30, 2020 to approximately RMB263.1 million for the six months ended June 30, 2021.

Management Discussion and Analysis

Non-GAAP financial measure

In order to supplement the consolidated financial statements prepared in accordance with HKFRS, the Company also proposed “Adjusted profit for the period” as a non-GAAP measure used by the management of the Group to provide additional information on its operating performance. The “Adjusted profit for the period” takes out the impact of Listing expenses and share-based payments, which are not indicative for evaluating the actual performance of the Group’s business. Under HKFRS, “Adjusted profit for the period” is not a standard measure. The management of the Group believes that such a non-GAAP measure provides additional information to investors and others in understanding and evaluating the consolidated results of operations in the same manner as the management of the Group. The following table sets forth a reconciliation between “Profit for the period” and “Adjusted profit for the period”:

	Six months ended June 30,	
	2021	2020
	RMB'000	RMB'000
Profit for the period	247,249	104,816
Adjusted for:		
Listing expenses (net of tax)	4,489	848
Share-based payments (net of tax)	11,321	22,358
Adjusted profit for the period	263,059	128,022

The definition of “Adjusted profit for the period” should not be considered in isolation or be construed as an alternative to profit for the period or any other standard measure under HKFRSs or as an indicator of operating performance. “Adjusted profit for the period” of the Group may not be comparable to similarly titled measures used by other companies.

Profit attributable to owners of the Company

Profit attributable to owners of the Company amounted to approximately RMB247.2 million for the six months ended June 30, 2021, representing an increase of approximately 135.9% from approximately RMB104.8 million for the corresponding period in 2020.

The Group's other receivables primarily consist of other receivables from related parties, payments made on behalf of property owners and residents related to utility fees, tender deposits and advances to employees. Other receivables increased from approximately RMB88.4 million as of December 31, 2020 to approximately RMB234.0 million as of June 30, 2021, primarily due to the increase in the cooperation intention deposits paid by the Group for the Period.

As at June 30, 2021, the Group's other payables amounted to RMB382.2 million, representing a decrease of approximately 0.9% from approximately RMB385.7 million as at December 31, 2020.

As at June 30, 2021, accrued payroll amounted to approximately RMB84.7 million, representing a decrease of approximately 18.9% from approximately RMB104.4 million as at December 31, 2020, mainly due to the distribution of year-end bonuses during the period accrued at the end of the previous period.

Net current assets

As at June 30, 2021, the Group's net current assets amounted to approximately RMB1,728.7 million (December 31, 2020: approximately RMB548.0 million). The increase in the Group's total current assets was primarily attributable to: (i) the increase in the cash and cash equivalents resulting from initial public offering; (ii) the increase in financial assets at fair value through profit or loss resulting from purchasing funds; and (iii) the increase in trade receivables resulting from business expansion.

SIGNIFICANT INVESTMENTS, ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

During the Relevant Period, the Company entered into a subscription agreement with, among others, Beijing Tongxing to subscribe for the security-type contractual funds issued by Beijing Tongxing in the amount of RMB500,000,000 in order to enhance the efficiency of capital utilisation and potentially generate higher return. As one or more of the applicable percentage ratios in respect of the subscription exceeded 5% but was less than 25%, the subscription constituted a disclosable transaction of the Company and was subject to the reporting and announcement requirements under Chapter 14 of the Listing Rules.

Details of this transaction are set out in the announcements of the Company dated June 21, 2021 and July 27, 2021, respectively.

Save as disclosed above, the Group did not have any other significant investment or significant acquisition of subsidiaries, associates and joint ventures during the Relevant Period.

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

The Group intends to utilise the net proceeds raised from the Listing according to the plans set out in the section headed "Future Plans and Use of Proceeds" in the Prospectus. Save as disclosed in this interim report and the Prospectus, the Group has no plans for any material investments or capital assets as at June 30, 2021.

Financial risks

The Group's activities are exposed to a variety of financial risks: foreign exchange risk, credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Management Discussion and Analysis

Foreign exchange risk

The Group's businesses are principally conducted in RMB. As at June 30, 2021, major non-RMB assets were cash and cash equivalents and financial assets at fair value through profit or loss which were denominated in HK\$ or US\$. Fluctuation of the exchange rates of RMB against HK\$ or US\$ could affect the Group's results of operations.

Currently, the Group does not implement any foreign currency hedging policy, but the management of the Group will closely monitor the exposure to any exchange rates and consider the use of hedging instruments if necessary.

Credit risk

The Group is exposed to credit risk in relation to its trade and other receivables, contract assets, cash deposits at banks and financial assets at fair value through profit or loss. The carrying amounts of trade and other receivables, cash and cash equivalents and financial assets at fair value through profit or loss represent the Group's maximum exposure to credit risk in relation to financial assets.

The Group expects that there is no significant credit risk associated with cash deposits at banks as they are substantially deposited at banks of high credit ratings. Management does not expect that there will be any significant losses from non-performance by these counterparties.

The Group expects that there is no significant credit risk associated with financial assets at fair value through profit or loss as the Group furnishes investment mandates to commercial banks, and these mandates require them to invest in wealth management products with high market credit rating, liquidity and stable return. Management expects that there will be no significant losses from non-performance by these counterparties.

The Group assessed that the expected credit loss (ECL) rate for trade and note receivables and contract assets from related parties were low considering the good financial position and credit history of the related parties. The Directors believe that there is no material credit risk inherent in trade and note receivables and contract assets from related parties. Apart from trade receivables and contract assets due from related parties, the Group has a large number of customers and there was no concentration of credit risk.

The Group expects the credit risk associated with other receivables due from related parties (including the loans due from related parties) to be low, since these entities have a strong capacity to meet their contractual cash flow obligations in the near term. The Group has assessed that the ECL rate for the amounts due from these entities are immaterial under the 12 months ECL method and considered them to have low credit risk, and thus the loss allowance is immaterial.

For other receivables due from third parties, the management makes periodic collective assessments as well as individual assessment on the recoverability of other receivables based on historical settlement records and past experience. The Directors believe that there is no material credit risk inherent in the Group's outstanding balance of other receivables.

Liquidity risk

To manage the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

CONTINGENT LIABILITIES AND LITIGATIONS

As at June 30, 2021, the Group did not have any material contingent liabilities and litigations (December 31, 2020: nil).

COMMITMENTS

As at June 30, 2021, the Group had capital commitment of RMB100 million in respect of the acquisition of equity interest (December 31, 2020: nil), and the lease commitment of the Group as a lessee amounted to approximately RMB0.2 million (December 31, 2020: approximately RMB0.7 million).

KEY FINANCIAL RATIOS

As at June 30, 2021, the current ratio was approximately 2.13 (December 31, 2020: approximately 1.46) and its liabilities to assets ratio was approximately 46.1% (December 31, 2020: approximately 65.9%).

Current ratio is calculated based on total current assets divided by total current liabilities as at the respective dates and multiplied by 100%.

Liabilities to assets ratio is calculated based on total liabilities, which represent the sum of current liabilities and non-current liabilities, divided by total assets, which represent the sum of current assets and non-current assets, as at the respective dates and multiplied by 100%.

USE OF PROCEEDS FROM INITIAL PUBLIC OFFERING

Net proceeds from the Listing, after deducting the underwriting commission and other estimated expenses in connection with the Listing which the Company received amounted to approximately HK\$1,168.0 million, which was translated into RMB973.68 million at the exchange rate of RMB0.83363 on the Listing Date. As of June 30, 2021, the unutilised net proceeds have been placed as interest bearing deposits with licensed banks in Mainland China and Hong Kong. 18 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

This note provides an update on the judgements and estimates made by the Group in determining the fair values of the financial instruments since the last annual financial report.

(a) Fair value hierarchy

To provide an indication about the reliability of the inputs used in determining fair value, the Group classifies its financial instruments into the three levels. An explanation of each level follows underneath the table.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Group uses estimated discounted cash flows to make assumptions.

The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).
